Palatine, Illinois 60067

RE: Briarwood Lane at Salt Creek  
Structure Number: 016-4000  
Palatine Township

Dear Powers:

The Cook County Highway Department is preparing plans for the improvement of a triple box culvert at the subject location. The proposed improvements to the culvert consist of the removal and replacement of the guardrail with traffic barrier terminal, Type 6 and traffic barrier terminal, Type 1 with bituminous shoulders; removal and replacement of the bituminous surface with a sheet water proofing membrane system; structural repairs of concrete to the triple box culvert and wing walls; deck slab repairs near deck drains; replace deck drains; and perform epoxy crack sealing and all collateral work as necessary to complete the project. This Improvement is located in the unincorporated area of Palatine Township.

Enclosed is a location map and preliminary plan sheet showing the proposed improvements. Please plot your existing facilities on the plan sheet and return to us. When plotting your facilities provide a size and dimension with reference to the centerline of the road. In addition please review the plan carefully and assess your involvement. There is an electrical meter box at the southwest corner of the box culvert (see attached pictures).

Please submit the marked up plan and atlas pages indicating your facilities to this office by April 4, 2008. Your prompt response would be appreciated. If you have any questions or need additional information regarding this improvement, please contact Ram Kuchipudi, Utilities Section Head, at (312) 603-1712.

Very truly yours,

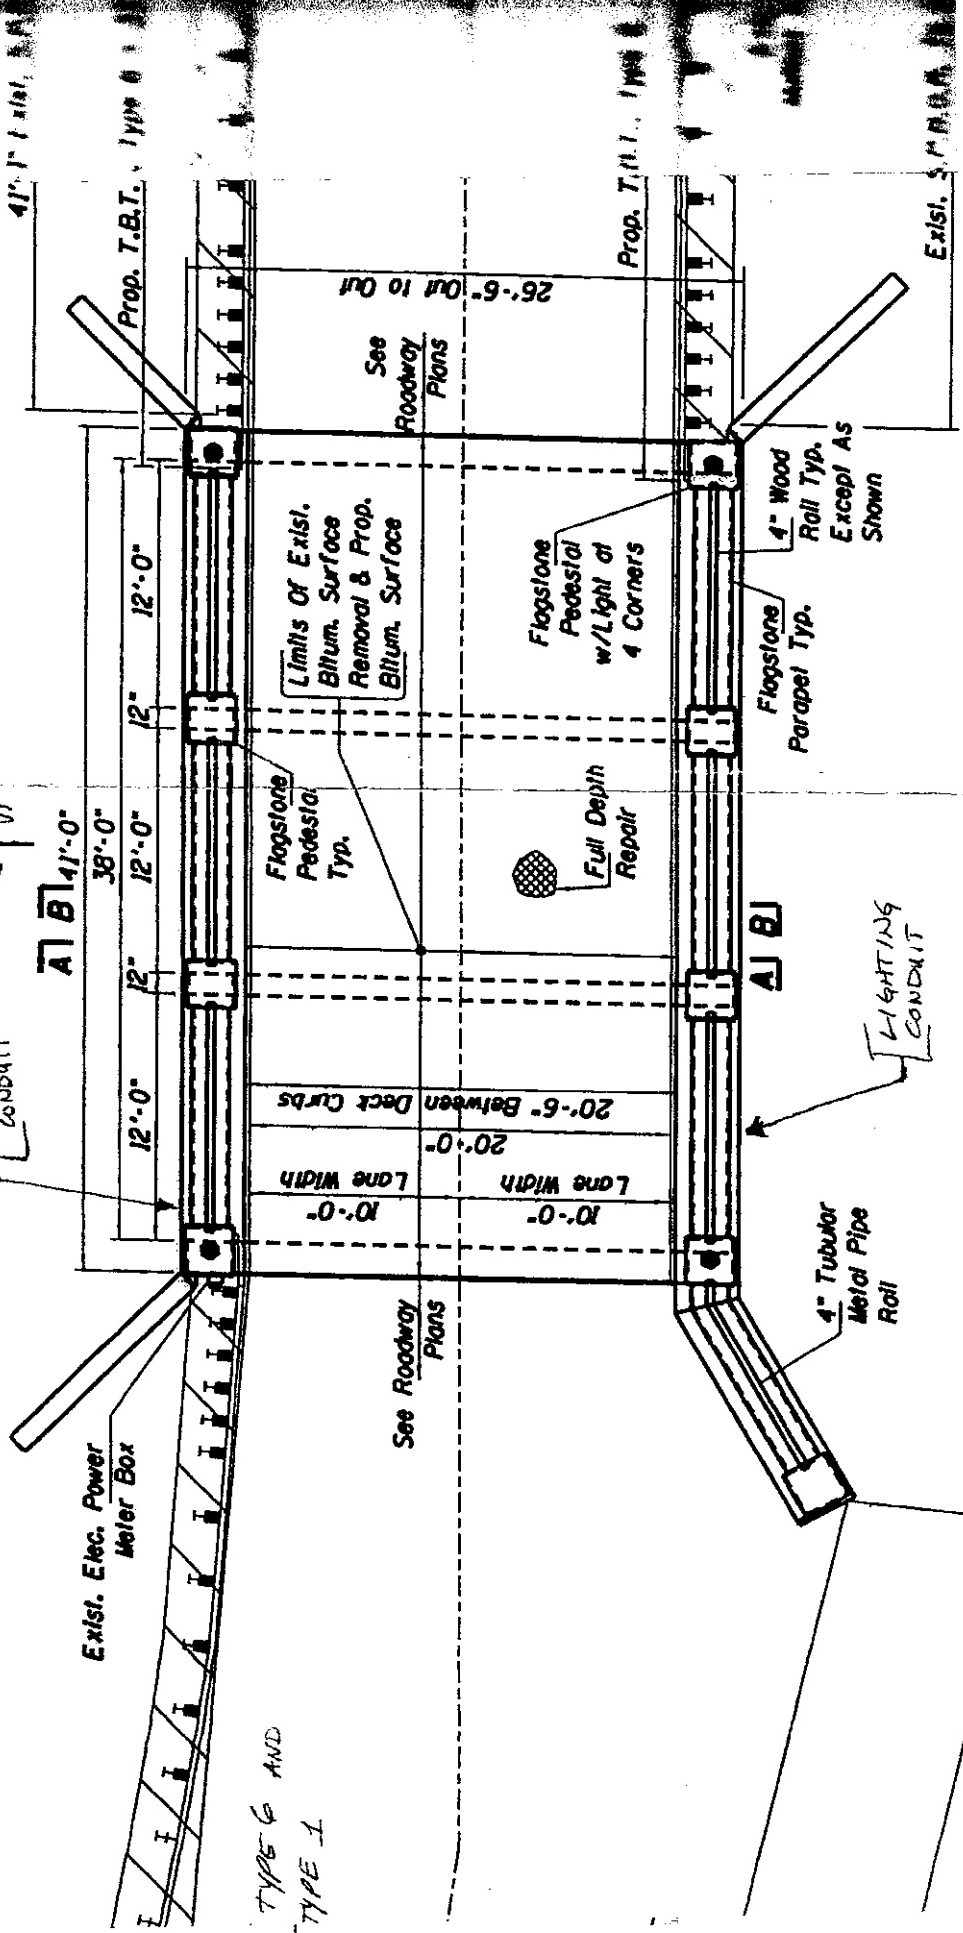

Frank J. Williams, P.E., S.E.  
Chief Engineer, Design Bureau
